BENEFITS OF THIS CALENDAR:

- There's no more **'First'** – so now, those last-minute tasks won't get pushed from the end of the month to the First of next month.
- Unproductive Saturdays and Sundays have been canceled. As well as Mondays - no more **'Monday-itis'** allowed!
- Many tasks need to be done **'yesterday'**. With this calendar, we can tackle them on the 6th and finish by the 5th.
- Most tasks should be finished by Friday. That's why every week now has **3 Fridays** – why settle for one when you can have three?"
- Introducing the new **Reserve Day!** Now, when urgent tasks pop up, there's no need to panic!
- At the end of the month, deadlines start piling up. To make more time, every month now has **6 extra days** – because who doesn't need a little bonus time?
